

MOHANA SANTHOSH

Kollam, Kerala | +91 9495752248 | mohanasanthosh0210@gmail.com

LinkedIn: linkedin.com/in/mohana-santhosh-868622282 | GitHub: github.com/MohanaSanthosh0210

EDUCATION

- M.Tech in Computer Science (Artificial Intelligence) — College of Engineering Trivandrum (2025–Present)
- B.Tech in Information Technology — GEC Barton Hill (2021–2025) | CGPA: 8.53/10

TECHNICAL SKILLS

- Languages: Python, R, C
- AI/ML: Machine Learning, Data Preprocessing, Model Evaluation
- Libraries: NumPy, Pandas, Scikit-learn
- Data & Visualization: Power BI, Tableau, Excel
- Web: MERN Stack (React, Node.js, Express, MongoDB)
- Core: Data Structures, DBMS, Artificial Intelligence

PROJECTS

Polygrow – AI-Based Smart Farming System

- Developed ML models for crop prediction, disease detection, and yield optimization
- Built preprocessing pipelines and improved prediction performance
- Integrated IoT-based inputs for real-time decision support

Potato Leaf Disease Detection

- Built image-based disease detection model
- Performed preprocessing, feature extraction, and classification

ChatInn – Real-Time Chat App

- Developed MERN app with Socket.io real-time messaging
- Integrated multilingual translation API

Data Analytics – Panchayat Data

- Performed EDA and built dashboards using Power BI and Excel

INTERNSHIP EXPERIENCE

- Ethical Hacking – CDAC Noida (Dec 2024 – Jan 2025): Developed clickjacking detection system
- MERN Stack – EY/AICTE (Feb 2025 – Mar 2025): Built full-stack applications and APIs

AI EXPERIENCE & CERTIFICATIONS

- AI Internship (Microsoft, SAP – TechSaksham): Built disease detection model
- Hands-on ML model development and evaluation

ACHIEVEMENTS

- GATE 2025 Qualified
- GATE 2024 Qualified
